

Our organization, Concord Girls Softball League Inc., is a non-profit organization that is focused on teaching girls the game of softball. We offer both recreational and tournament softball. Between our recreational league and our travel teams we serve over 300 girls in Eastern Lake County! Our league is run solely by volunteers who dedicate a considerable amount of time working to make the league a success. Our league is funded by player entry fees, which we strive to keep low, and donations from local businesses and families. Our league objectives are simple but meaningful: develop each player's fundamentals to prepare them to play higher level competition, educate players on the value of team work, build players' confidence as young women, and make the experience fun.

We are reaching out to see if your company would be interested in sponsoring our travel teams this upcoming year. We are a fast-growing organization that has a lot of exciting things happening.

Thank you so much for any consideration you give to our organization.
